Size: **2 X 4 X 11 GA 304L Stainless Steel Tube
Polished 180 Grit**

Source : **United States**

Heat : **535835**

Vendor: **Outokumpu**

Test Report #: **83727**

Date : **01/06/22**

SPECIFICATION

Product description: Structural Stainless Steel Tube, ASTM A554-21, AISI 304/304L DUAL CERTIFIED, UNS 30400/30403; Raw Material - ASTM A240-20a, ASME SA240-17, NACE MR0175/MR0103, AMS 5511K/AMS5513K, Remarks: EN 10204 2.2, QTY SHIPPED in FT, NO WELD REPAIR, RoHS 1, 2 & 3 COMPLIANT.

Total Weight (See Packing List) divided by Total FT Equals Approx. Weight per FT

Material is free of Mercury Contamination. Material is free of Radioactive Contamination. Product manufactured using annealed stainless steel. Minimum solution anneal temperature 1900 F, Water Quenched. Corrosion Test: ASTM A262-15 Practice E - Passed

Chemical analyses are correct as contained in the supplier's Metallurgical Test Report. Mechanical Properties are measured from Sheet or Plate before processing

Melted and Manufactured in the United States, Material DFARS compliant

CERTIFIED BY Inventory Control Dept.
